AIRNET Spray

Degreasing cleaner for air conditioning circuits.

DESCRIPTION

AIRNET® Spray. It is a cleaning product for air conditioning refrigeration circuits based on polyalcohol solvents and anticorrosive inhibitors. Useful for removing all types of stubborn dirt. Due to its great cleaning power, it removes, without the need for mechanical efforts and aggressive products, the accumulations of dirt produced by the passage of air, nicotine, dust, etc. Its bactericidal cleaning character ensures that bad odours do not proliferate.

HOW TO USE

In air conditioners, spray the front and upper area of the split where the air circulates (until saturation), at a distance of 15/20 cm.
Do not spray on electrical or electronic areas.

APPLICATION

AIRNET® Spray. It is used for cleaning air conditioning systems and circuits. For external cleaning of splits, fan-coils, indoor unit, filter cleaning, etc. Applicable to cleaning any type of surface which is not damaged by water. Spray the front and upper area of the split where the air circulates. Operate the system to distribute AIRNET® Spray through all the lines. Let it act until it is completely impregnated. Leave the equipment running for 10-15 min. Then it is advisable to spray with our hygienic AIRPUR® Spray odour eliminator.

FORMAT

400 ml aerosol.
Boxes of 12 units.
Complete pallets of 105 boxes

Warnings

The suggestions and recommendations on the use of our products respond to our best knowledge and understanding at the time of writing this technical sheet. We are not responsible for any possible negligence in its handling. Compliance with all legal provisions, including those existing regarding the protection of industrial property, is exclusively the responsibility of the users of our products.

PHYSICAL PROPERTIES

APPEARANCE – AEROSOL
COLOUR – GREEN
SCENT- PINE
WEIGHT – MIN. 451 G/MAX. 460 G
PH 100% – 9,5 – 10
FLASH POINT – HIGHLY FLAMMABLE

QUALITATIVE COMPOSITION

NON-IONIC SURFACTANTS
CATIONIC SURFACTANTS
ANTICORROSIVES
ALKALINIZERS
SOLVENTS
