# AIRPUR Spray

## AC circuit odour eliminator.

### DESCRIPTION

---

AIRPUR® Spray is a product specially formulated to eliminate bad odours from fermentation and the metabolites produced by microorganisms lodged in the air ducts. Its low level of toxicity and high efficiency make it an essential product wherever an air conditioning system has been installed.

### HOW TO USE

---

It is sprayed directly on the areas that are sources of bad smell. In air conditioners, clean the circuit with our AIRNET® Spray cleaning product. Once the circuit is clean, apply AIRPUR® Spray by spraying until saturation. Start the conditioning group to distribute the product well. Applicable to sanitize air conditioning environments, circuit drains, etc.

In air conditioners, spray the front and upper area of the Split through which the air circulates (until saturation). At a distance of 15/20 cm. Do not spray on electrical or electronic areas.

### FORMAT

---

400 ml aerosol.  
Boxes of 12 units.  
Complete pallets of 105 boxes

### Warnings

The suggestions and recommendations on the use of our products respond to our best knowledge and understanding at the time of writing this technical sheet. We are not responsible for any possible negligence in its handling. Compliance with all legal provisions, including those existing regarding the protection of industrial property, is exclusively the responsibility of the users of our products.

### PHYSICAL PROPERTIES

---

APPEARANCE – AEROSOL  
LIGHT COLOUR  
SCENT – SLIGHTLY SCENTED  
WEIGHT – MIN. 426 G/MAX. 436 G  
PH 1% – SLIGHTLY ACIDIC

### QUALITATIVE COMPOSITION

---

METALLIC OLEATES  
QUATERNARY AMMONIUM SALTS  
ALCOHOL
