AIR SERNET

Air conditioning components cleaner degreaser (condenser coils)

DESCRIPTION

AIR SERNET is a concentrated (non-acid) product. It can be diluted with water, formulated for cleaning and maintenance of all types of air conditioning equipment, improving and increasing the efficiency of heating and air conditioning units.

Eliminates the remains and deposits of dust, grease, oils that can appear in heating, ventilation and air conditioning devices, in the refrigeration industry.

HOW TO USE

The product must be diluted to a ratio of 1:10 with water, depending on the state of the equipment to be cleaned, spraying and leaving it to act for 5 minutes to penetrate the dirt, rinsing with water, without requiring pressure due to the great entrainment power of the product.

Note: The product is water-based, for this reason it must be ensured that the equipment must be dry before starting it up.

APPLICATION

It is used for cleaning air conditioning or heating systems, evaporation and condensation coils (coils), radiators, exhaust fans, air filters, etc.

FORMAT

5 litre containers.
Boxes of 4 units.
Complete pallets of 32 boxes

Warnings

The suggestions and recommendations on the use of our products respond to our best knowledge and understanding at the time of writing this technical sheet. We are not responsible for any possible negligence in its handling. Compliance with all legal provisions, including those existing regarding the protection of industrial property, is exclusively the responsibility of the users of our products.

PHYSICAL PROPERTIES

APPEARANCE – TRANSPARENT LIQUID
COLOUR – GREENISH YELLOW
DENSITY – MIN. 1.042/MAX. 1.062
PH 1% – 10 – 11

QUALITATIVE COMPOSITION

NON-IONIC SURFACTANTS.
ANTICORROSIVES
ALKALINIZERS
SOLVENTS
SEQUESTRANTS
DEFOAMERS
